

David Reitter

Applied Cognitive Science Lab
& Center for Language Science
College of Information Sciences and Technology

The Pennsylvania State University
University Park, PA.
reitter@psu.edu

Education

PhD (Cognitive Science), School of Informatics, University of Edinburgh, UK 2008
MSc (Computer Science), University College Dublin, Ireland 2005
Diplom (Computational Linguistics), University of Potsdam, Germany 2003

Employment

Assistant Professor, College of Information Sciences and Technology, Penn State 2012-
Co-Director, Applied Cognitive Science Lab.
Affiliated Faculty: Center for Language Science, Penn State
Postdoctoral Researcher and Special Faculty, Carnegie Mellon University 2008-2012
Research Fellow, MIT Media Lab Europe, Dublin, Ireland 2002-2004
Computational Linguist, Agentscape AG, Berlin, Germany 2000-2001
Radio journalist (freelance, desk editor) for RadioEINS, Berlin, and ARD, Germany 1999-2002

Grants, Contracts and Fellowships

Major External Support:

Sum of external funding as PI/Co-PI: US\$ 1,184,000 to David Reitter; US\$ 1,839,000 total.

PI. CompCog: Inference of the syntactic and semantic relationships between words from an untagged corpus using a distributional model of semantics derived from human memory theory **National Science Foundation** (Perception, Action, & Cognition, co-funded: Robust Intelligence). US\$ 500k. (Single PI.) 2017

Co-PI (with G. Palmer and V. D’Orazio, UT Dallas). 2015
Updating the militarized dispute data through crowdsourcing: MID5, 2011-2017.
National Science Foundation (Political Science). US\$ 345k, total: US\$ 1 Million.

PI. Modeling syntactic priming in language production according to corpus data. 2015
National Science Foundation (Linguistics). US\$ 75k. (Single PI.)

PI. Alignment in web-forum discourse: computational models of adaptation and language change. 2015
CISE Research Initiation Initiative grant (CRII)
National Science Foundation (Computer Science/Robust Intelligence). US\$ 174k. (Single PI.)

PI. Evaluating the impact of explanation-based transparency approaches on human trust in autonomous unmanned systems. 2014
Air Force Research Laboratory (Prime: SRA; Sub: Lockheed Martin Corp.). US\$90k. (Single PI.)

Other External Support / Support as Co-I / Internal Seed Grants and Contracts:

PI (with F. E. Ritter). ICCM 2016: International Conference on Cognitive Modeling. Conference Support. National Science Foundation (SBE PAC, CISE IIS). US\$ 15,480	2016
Co-PI (with M. Putnam and M. Carlson). Competition, conflict, and optimization: Toward a dynamic model of multilingualism. SSRI Faculty Fellows Program. US\$ 22,500	2016
Co-PI (with J. Yen and S. Haynes). Teaching innovation for developing an undergraduate course on human-robot interaction using a humanoid robot. College of IST. US\$ 10,000.	2015
Consultant . Voice-enabled agent for realistic integrated combat operations training. Small Business Innovation Grant to ORION Int'l; Air Force Office of Scientific Research.	2014
Co-PI (with J. Grossklags). Once bitten, twice shy: Controlled experiments and cognitive modeling of online marketing scams. Seed grant funded by the College of IST. US\$ 8,500.	2013
PI (with Co-PIs J.Yen and P. Mitra). Interactive linguistic alignment in large social networks of health online forums. Seed grant funded by the College of IST. US\$ 8,000.	2013
Co-I (with G. Palmer et al.). Using crowdsourcing to measure complex social concepts. Seed grant funded by the Social Science Research Institute. US\$ 20,000.	2013
Co-I (with C. Lebiere). Learning and modeling for human performance and readiness. Air Force Research Lab, Human Effectiveness Dir. (Prime: Ball Aerospace) ~\$500k. Reduced to ~\$50k due to sponsor budget cuts.	2011
Postdoctoral Fellowship , German Academic Exchange Service. Awarded, but not used ~\$100k.	2008

Advising and Teaching

Graduate Students

PhD:	Dr. Yafei Wang, Web-Forum Discourse, 2013-2017, now: IBM Research Ms. Moojan Ghafurian, Decision-Making in Timing Tasks, 2013- Mr. Yang Xu, Alignment in Web-Forum Discourse, 2013- Mr. Alexander G. Ororbis II, Deep Learning with Restricted Boltzmann Machines, 2013- Mr. Jeremy R. Cole, Unsupervised Cognitive Modeling of Language Processing, 2014-
PhD committee:	Dr. Michael Kenwick (2017), Dr. Siddharta Banerjee (2016), Dr. Kyle Williams (2016)
MSc:	Saranya Venkatraman, 2017-

Teaching at Penn State

Computational Models of Language - Graduate Seminar	2016
Cognitive Science: Introduction (400-level)	2013, 2017
Emerging Issues in Cognitive Science (Graduate)	2015
Intro. and intermediate Object-Oriented Programming (Java and Python) (200-level)	2012-2015

Teaching at Sungkyunkwan University, International Summer Semester, Seoul, Korea

Data Science and Management	2016
How the Mind Works - A Big Data Approach	2015, 2016

Teaching at Carnegie Mellon University

Cognitive Psychology, a 200-level lecture (140-180 students, 9 units) Department of Psychology, Carnegie Mellon University	2011, 2012
---	------------

Activities and External Service (Selection)

Founder and project lead, <u>Aquamacs Emacs</u> , a software project for science and engineering. More than 13,000 regular users world-wide, primarily in academia	2005-
Inventor/Developer, <u>Zot_bib_web</u> , a tool to create interactive, explorable web bibliographies	2016-
Senior program committee member, CogSci: Annual Mtg. of the Cognitive Science Society	2017
Co-editor, Issue on Computational Models of Memory, <i>Topics in Cognitive Science</i>	2017
Program co-chair, International Conference on Cognitive Modeling	2016
Area chair in Cognitive Modeling and Psycholinguistics, ACL: Assoc. Computational Linguistics	2016
General and program co-chair, ICCM: International Conference on Cognitive Modeling	2016
Program co-chair, SBP-BRiMS: <i>Social, Cultural, and Behavioral Modeling</i>	2016
Program co-chair, Behavioral Representation in Modeling and Simulation Conference	2013, 2014, 2015
Co-editor, Issue on Behavior Representation, <i>Computational and Mathematical Organization Theory</i>	2015
Co-editor, Issue on Computational Models in Linguistics, <i>Topics in Cognitive Science</i>	2012
Co-chair, 2nd and 3rd Workshops on <i>Cognitive Modeling and Computational Linguistics</i>	2011, 2012
Board member, ACL SIG Natural Language Generation	2005, 2006

Reviewing

Editorial review board member: <i>Frontiers in Psychology</i>	2015-
Panel member, National Science Foundation	2015
Ad-hoc reviewer for <i>Cognition</i> , <i>Cognitive Science</i> , <i>Topics in Cog.Sci.</i> , <i>Psychonomic Bulletin&Review</i> , <i>J Cog. Sci.</i> , <i>Cognitive Science Research</i> , Engineering and Physical Sc. Research Council (EPSRC). <i>Intl. J. Human Computer Studies</i> , <i>J of Cognitive Engineering and Decision-Making</i> .	
Program Committee Member: Mtg. Association Computational Linguistics (ACL); Mtg. North- American ACL (NAACL); Cognitive Modeling and Computational Linguistics (CMCL); Social Computing, Behavioral-Cultural Modeling and Prediction Conference (SBP); Mtg. Cognitive Science Soc. (CogSci, EuroCogSci); previous years: ACM CHI, ACM UIST, INLG, etc.	2015

Visiting

Visiting Research Scientist, Center for Research in Language, Cognitive Science, University of California, San Diego	2017-
Speech Interfaces Group, Media Laboratory, MIT	2004
Dept. of Computer Science, Macquarie University, Australia	2003

Service to Penn State

Graduate Advisory Committee, College of IST, Penn State	2015-
Initiator/Director, Exchange Program with Sunkyunkwan University, Korea	2015-
Faculty Advisor, Penn State Soaring Club	2012-
Task-Force: Global Engagement Network, PSU / National Taiwan Normal University	2015
Data Science Major development (Course Committee), College of IST, Penn State	2015
Graduate Recruiting Committee, College of IST, Penn State	2013-2015
Assessment Committee, College of IST, Penn State	2012-2014

Awards (Selection)

Best Model. Predicting Cognitive Performance in Open-ended Dynamic Tasks – A Modeling Comparison Challenge. International Conference on Cognitive Modeling	2009
Best Paper. Behavior Representation in Modeling and Simulation Conference	2009
Best Thesis Award. German Society for Computational Linguistics & Language Technology	2003

Invited Lectures

Computational approaches to modeling dialogue, Dept. of Linguistics, U. of California, San Diego	2016
Alignment and Information in Dialogue: How contributions of ideas are reflected in language Korea Advanced Institute of Science and Technology (KAIST), Korea	2016
Alignment in Dialogue: Beyond Syntax. Invited talk, Linguistics Dept., Georgetown University	2015
Window into the mind: Syntactic priming and what it reveals about the psychology of dialogue Department of Psychology, Seoul National University, Korea	2015
Large-scale language data as window into the mind, Distinguished Lecture Series, Department of Library & Information Sciences, Sungkyunkwan University, Korea	2015
How the Mind Works: How Big Data Cognitive Science Unlocks the Mystery of the Human Mind, Invited 3-day lecture, King Abdullah University of Science & Technology, Saudi Arabia	2015
Big-data insights into cognitive representations of language processing, International Workshop on Advanced Learning Sciences, Taipei, Taiwan	2014
Social cognition, on the benefits of forgetting. School of Information Sciences & Tech, Penn State, PA	2012
Measuring and Modeling Language Convergence in Networks. TU Berlin, Germany	2011
Adaptation to conversation partners: On alignment in dialogue. IST, Penn State, PA	2010
Two-level, multi-strategy memory based control. Dynamic Stocks and Flows Modeling Challenge Symposium, Int'l Conf. on Cognitive Modeling, Provo, UT	2009
Cognitive Models of Alignment in Dialogue. Bielefeld University, Germany	2008
Structural Priming: Studies of Syntax and Alignment in Dialogue Corpora. U. Paris 7, France	2007
Statistics tutorial: Linear mixed models. Dept. of Psychology, U. of Dundee, UK	2007
FASiL: A multimodal dialogue system for E-Mail. Institute of Linguistics, U. Potsdam, Germany	2005
Aspects of a situationalized multimodal human-computer interface. School of Computer Science, Carnegie Mellon University, Pittsburgh, PA	2004
Media Laboratory, Massachusetts Institute of Technology, Cambridge, MA	2004
School of Informatics, University of Edinburgh, UK	2004
UI on the Fly: Generating a multimodal user interface with functional unification grammar. Computer Science Department, Macquarie University, Sydney, Australia	2003

Skills

English, German; basic: French

Python, Java, C++, C, shell scripting, Prolog, Common Lisp, Emacs Lisp, LaTeX. basic: Perl, assembly, etc.

Commercial and private pilot (airplane, glider), instrument rated, US (FAA), also: glider, UK (CAA).

Publications

Manuscripts

Margreet Vogelzang, Annelot De Rechteren van Hemert, David Reitter, Jacolien Van Rij, Petra Hendriks, & Hedderik Van Rijn (in invited revision).

Towards cognitively constrained models of language processing: A review.
Frontiers Psychology.

David Reitter and Jens Grossklags (in review).

Timing Decisions: How Individual Differences and Task Perception Affect Choices.
Cognitive Science.

Moojan Ghafurian* and David Reitter (in revision).
Impatience in Dynamic Decision Making.

*Asterisks indicate advisees.
Publications are available at
www.david-reitter.com/pub

Bill McDowell*, Nathaniel Chambers, Alexander Ororbia II*, David Reitter (in revision)
Event Ordering with a Generalized Model for Sieve Prediction Ranking

Michael T. Putnam, David Reitter, Matthew Carlson (in review)
Integrated, not isolated: Defining typological proximity in an integrated multilingual architecture.

Journal Articles

Alexander G. Ororbia II*, Tomas Mikolov, and David Reitter
Learning Simpler Language Models with the Delta Recurrent Neural Network Framework.
Neural Computation, accepted, 2017.

Yang Xu* and David Reitter
Entropy in conversation: Towards an information-theoretic model of dialogue.
Cognition, accepted pending revisions, 2017.

Vito D'Orazio, Michael Kenwick, Matthew Lane, G. Palmer, and David Reitter
Crowdsourcing the measurement of interstate conflict.
PLOS ONE, 11(6), 2016.

Jeyon Paik, Jong Kim, Frank E. Ritter, David Reitter
Predicting User Performance and Learning in Human-Computer Interaction with the Herbal Compiler.
ACM Transactions on Computer-Human Interaction 22 (5), 2015.

David Reitter and Johanna D. Moore
Alignment and Task Success in Spoken Dialogue.
Journal of Memory and Language, 76, 29-46, 2014.

David Reitter, Frank Keller, and Johanna D. Moore.
A computational cognitive model of syntactic priming.
Cognitive Science, 35(4):587-637, 2011.

David Reitter and Christian Lebiere.
How groups develop a specialized domain vocabulary: A cognitive multi-agent model.
Cognitive Systems Research, 12(2):175-185, 2011.

David Reitter and Christian Lebiere.
A cognitive model of spatial path planning.
Computational and Mathematical Organization Theory, 16(3):220-245, 2010.

David Reitter.
Metacognition and multiple strategies in a cognitive model of online control.
Journal of Artificial General Intelligence, 2(2):20-37, 2010.

Kevin A. Gluck, Clayton T. Stanley, Jr., L. Richard Moore, David Reitter, and Marc Halbrügge.
Exploration for understanding in cognitive modeling.
Journal of Artificial General Intelligence, 2(2):88-107, 2010.

David Reitter.
Simple signals for complex rhetorics: On rhetorical analysis with rich-feature support vector models.
LDV-Forum, Journal for Computational Linguistics and Language Technology, 18(1/2):38-52, 2003.

Theses

Context effects in language production: Models of syntactic priming in dialogue corpora. PhD thesis, University of Edinburgh, 177 p., 2008.

Hybrid planning and realization of coherent utterances for multimodal natural language dialogue systems. Master's thesis, University College Dublin, 115 p., 2004.

Rhetorical analysis with rich-feature support vector models.

Master's thesis, University of Potsdam, 94 p., 2003.

Abstract-based Conference Talks and Posters

An Efficient System for Conflict Data Production

(V. D’Orazio, David Reitter, G. Palmer, M. Kelly, M. Kenwick, Z. Terechshenko, D. Okyere)

Presented at the 2017 Conference of the Society for Political Methodology (PolMeth), Madison, WI

A.G. Ororbia II*, D. R., C.L. Giles

The Temporal Neural Coding Network: Towards Lifelong Language Learning.

Presented at the 11th Annual Machine Learning Symposium, The New York Academy of Sciences.

Human Visual Perception of the 17 Wallpaper-Group Patterns using Timed Trials.

(Y. Liu, J. Cole*, and David Reitter)

Oral presentation at the Vision Sciences Society Sixteenth Annual Meeting, Florida, 2016.

Systematic, Individual and Situational Biases in Timing Decisions.

(M. Ghafurian*, J. Grossklags, David Reitter) Oral Presentation at the International Meeting of the Psychonomic Society, Granada, Spain, 2016

Symmetry Features and Group Hierarchy Model Human Symmetry Perception.

(J. Cole*, David Reitter, Y. Liu) Poster at the International Meeting of the Psychonomic Society, Granada, Spain, 2016

Cognitive Models Predicting Surprisal in Robot Operators.

(David Reitter, Y. Xu*, P. Craven, A. Sándor, R.C. Garrett, E.V. Cross, J. L. Franke) Poster and Abstract presented at the International Conference for Cognitive Modeling, Groningen, Netherlands, 2015

Cognitive Security.

(David Reitter, C. Gonzalez, C. Lebiere and J. Meyer.) Panel presented at the 13th Annual Workshop on the Economics of Information Security, University Park, PA, 2014.

Computational and Underspecified Approaches to Standardization.

In: “Methods for Communicating the Structure and Content of a Cognitive Model”, a discussion panel at Human Factors and Ergonomics Society International Annual Meeting. San Diego, CA, 2013.

Modeling Efficiency-guided Modality Choice in Voice and Graphical User Interfaces.

(S. Schaffer (TU Berlin), and David Reitter). Poster at the 2012 International Conference on Cognitive Modeling.

Berlin, Germany, 2012.

Cognition and social dynamics: a new approach to emergent phenomena.

(With A. Coman, W. Mason, W. Hirst) Symposium at the 23rd Annual Convention of the Association for Psychological Science, Washington, DC, 2011.

Scaling Individual Decision Making Models to Models of Social Networks.

(With C. Gonzalez, C. Lebiere, I. Juvina, I. Erev, M. Zinkevich)

Symposium at Behavior Representation and Modeling, Provo, UT, 2011.

The Geo Game: Information propagation and collaboration in large human networks.

Talk at *Scaling Individual Decision Making Models to Models of Social Networks*, a Symposium at the 20th Behavior Representation in Modeling & Simulation Conference, 2011.

ACT-UP: A cognitive modeling toolkit for composition, reuse and integration. (With C. Lebiere)

Talk at MODSIM World Conference and Expo, Hampton, VA, 2010.

Results and lessons learned from the 2009 DSF model comparison challenge.

(With W. Warwick, V. Dutt, K.A. Gluck)

Symposium at the 19th Behavior Representation in Modeling & Simulation Conference, 2010.

Structural priming in language production as the result of learning and spreading activation in ACT-R.
(With F. Keller.)

Presentation at 21st CUNY Conference on Human Sentence Processing. Chapel Hill, NC, 2008.

The repetition of general lexical material boosts structural priming in language production.

Poster at 21st CUNY Conference on Human Sentence Processing. Chapel Hill, NC, 2008.

Successful dialogue requires syntactic alignment. (With J. D. Moore)

Poster at 20th CUNY Conference on Human Sentence Processing. San Diego, CA, 2007

Corpus-based evidence against sequence priming. (With F. Keller and J. Hockenmaier)

Poster at 20th CUNY Conference on Human Sentence Processing. San Diego, CA, 2007

Corpus-based evidence for syntactic priming as rule repetition. (With J.D. Moore and F. Keller)

Presentation at 12th Annual Conference on Architectures and Mechanisms for Language Processing
(AMLaP), Nijmegen, Netherlands, 2006
